Vinification & Ageing

- FERMENTATION Traditional in open vats
- AGEING 10 to 12 months ageing in oak barrels, 15% new
- BARRELS Louis Latour cooperage, French oak, medium toasted

Description

The grapes selected to produce this wine are located on the hill of Corton in south-easterly facing parcels. The vines are managed in the traditional way by the Louis Latour team which carries out strict pruning in order to produce later harvests thus insuring a good degree of maturity in the grapes. This wine is made up of grapes selected from several different parcels of vines in order to guarantee consistent quality each year. It has a good ageing potential.

Wine tasting

- TASTING NOTE A dark cherry colored robe. The dominant aromas are those of jammed wild red berries, which evolve into more cherry and licorice-like ones, this complemented with subtle wood notes. A muscular wine that holds well on the palate. A wine with utmost great cellaring potential, not to be opened for at least ten years to allow for it to reach its apogee. Tasted March 2007.
- CELLARING POTENTIAL 10-15 years
- FOOD PAIRING Beef "Bourguignon" wild boar mature cheeses.
- SERVING TEMPERATURE 16-17°
