### *Description*

The village of Morey-Saint-Denis can be found just to the south of Gevrey-Chambertin and produces wines that are predominantly red - which were not distinguished from its neighbours until the strict application of the Appellation Contrôlée laws in the 1930's. The wines, on the whole, show a greater depth and concentration than those of Gevrey-Chambertin and their tannins are less forthright. They tend to be rich with lashings of red and black fruit character.

### *Wine tasting*

- TASTING NOTE Our Morey-Saint-Denis 2017 offers a deep ruby color which reveals an intense nose combining flowers, such as violet, fruits with blackberry notes, and spices, as pepper. Its mouth is round with silky tannins. We notice a great freshness on the finish.
- CELLARING POTENTIAL 5-7 years
- FOOD PAIRING Game - red meat - mature cheeses.
- SERVING TEMPERATURE 15-16°
